

Metal Traders & Processing

Iron & Steel Processors & Transporters

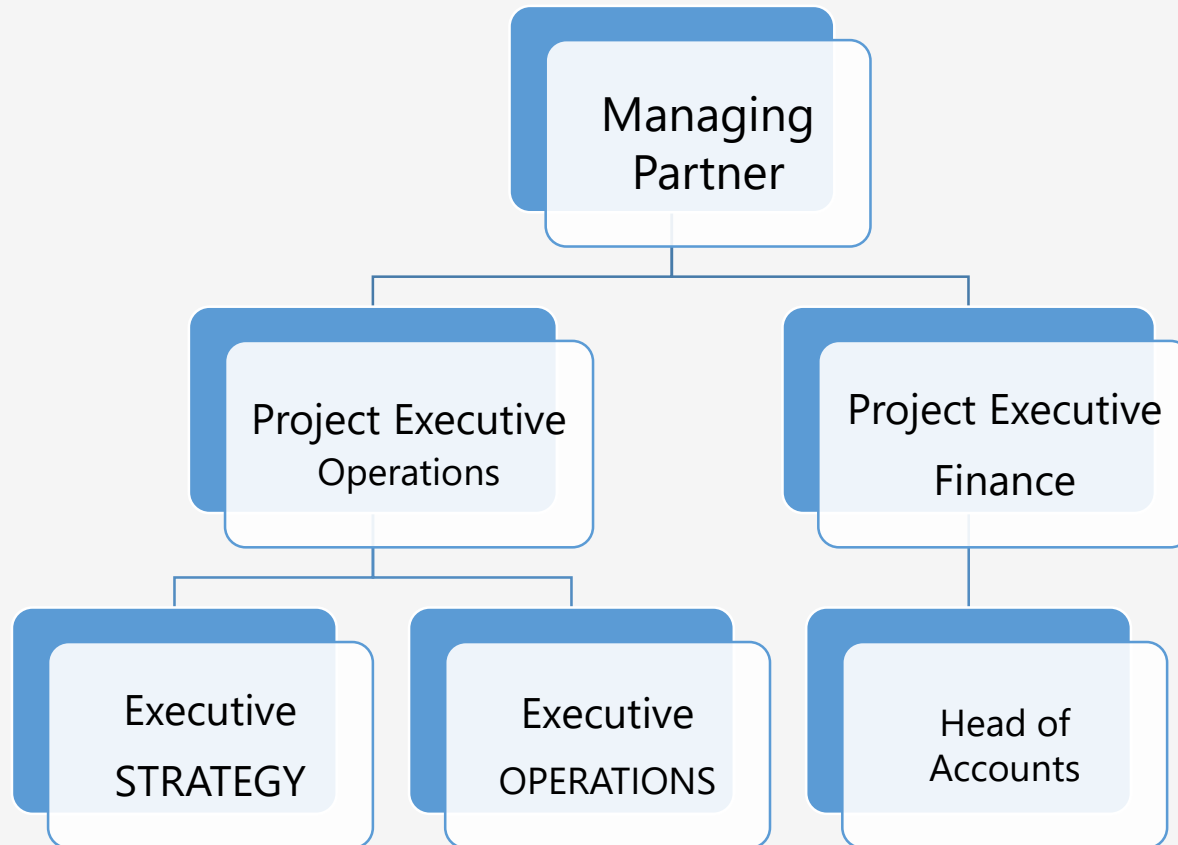

MANAGEMENT

of

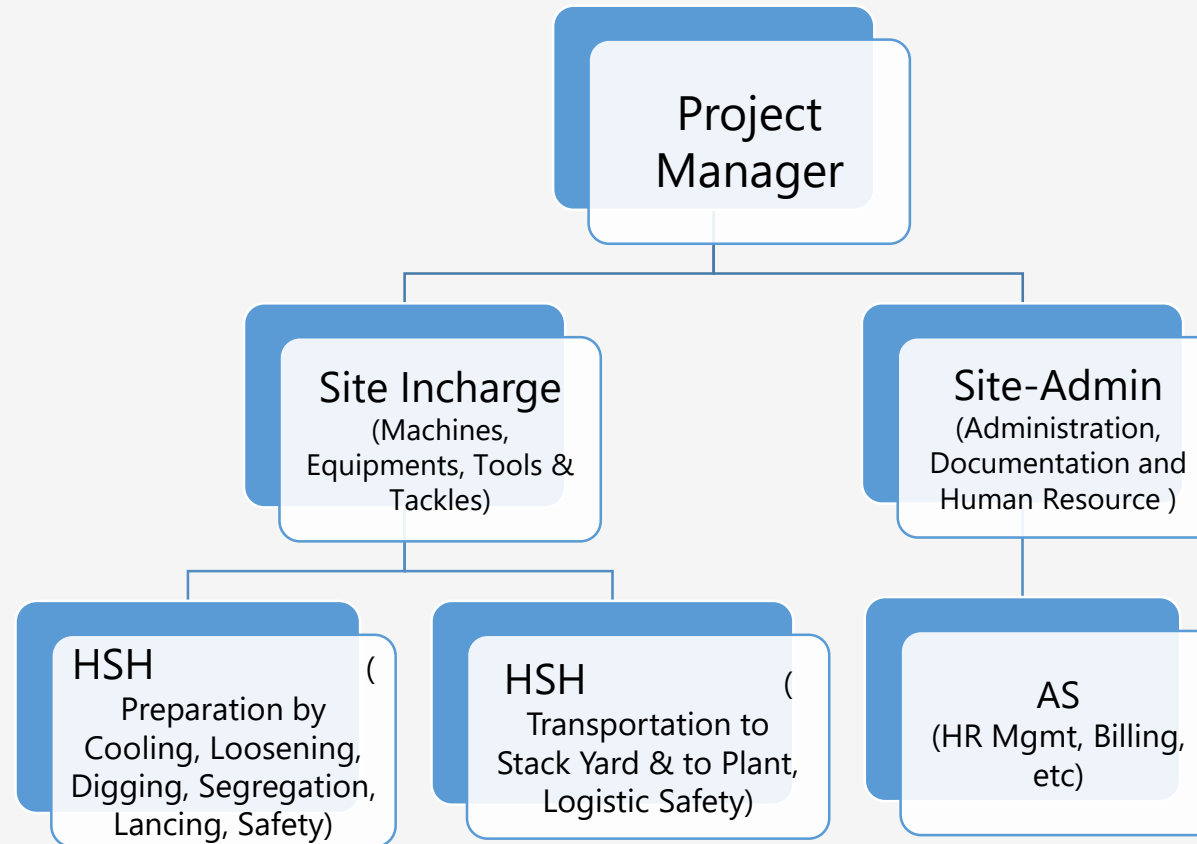

Business Management by MTP

Our Business is Administered & Managed through Two(2) different entities which are inter related in terms of type of activities involved

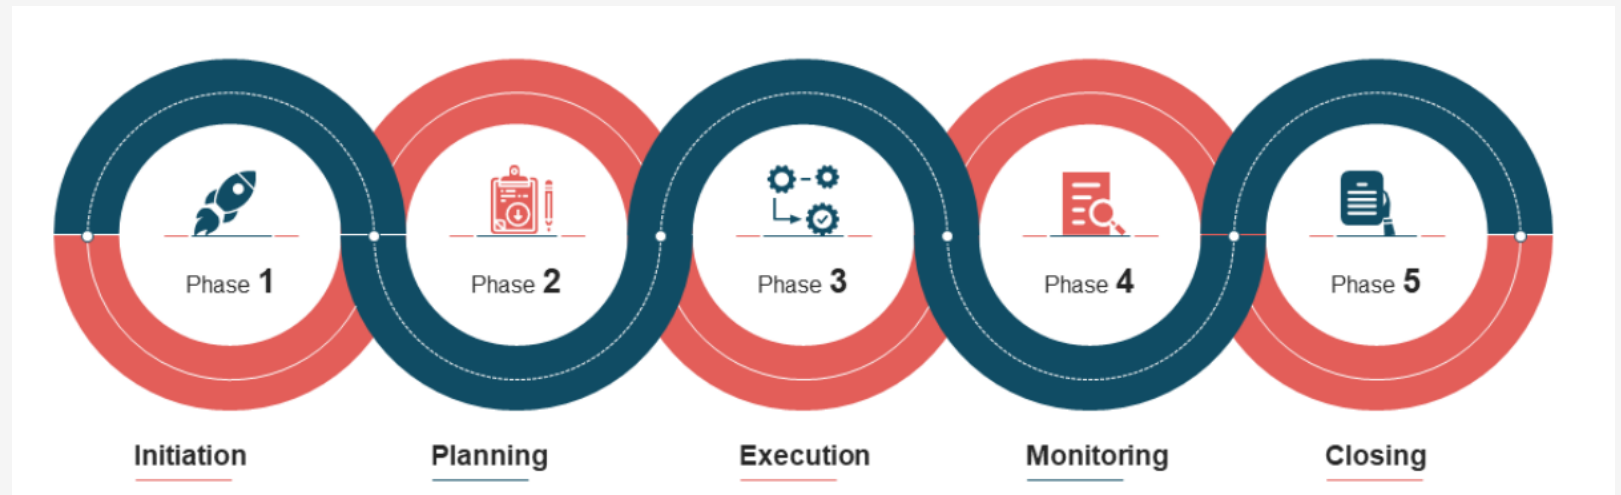

Execution Management by MTPC

Project Management by MTP

We at MTP are adhering to strict norms of Project Management to ensure Effective and efficient Management both at Business Management level as well as Site Management level

- 1 Initiation of Contract
- 2 Project Engineering & Planning
- 3 Mobilization & Execution
- 4 Monitoring , Reporting & Controlling.
- 5 Billing , Closing successfully

Our Strengths

We at MTP are capable of deploying our execution resources within a Short Period of time .

Our Resource Capabilities include :

- Project Engineering
- Project Management team
- Manpower
- Machines
- Equipment and Tools for Maintenance

CAPABILITIES

of

Our Handling Capabilities

Digging HOT Slag @700 to 1000 degree

LOOSENING

HANDLING of Tundish Skull and CCP Pot

SEGREGATION through Balling

SEGREGATION through Lancing Methods

Dumping Material at Dump Yard

Fe - ENRICHMENT through Rumbler, Impactor and Screening Units

Loading, Transporting and Unloading of Hot Slag with Utmost SAFETY

SHIFTING the Segregated and Useful Material to Plant

Our Execution team is extremely **Efficient & Effective** in Handling the activities involved in Hot Slag Handling & Processing

Our Segregation Capabilities

Segregation & Grading	Description of Activity
0 - 5 mm :	Metallics is Segregated by passing it through Rotating Magnetic drum for Micro Pellet Plant
5 - 200 mm :	Metallics is Segregated by passing it through Rotating Magnetic drum for SMS in Various categories and sizes by passing through Fe - Enrichment (wherever needed)
> 200 mm :	Metallics separated by Grizzly / Magnetic Balling Method for SMS
0 - 10 mm :	Non- Metallic Slag is Segregated for SINTER Plant
10 - 30 mm :	Non-Metallic Slag is Segregated and sent to RMHS
30 - 200 mm :	Non-Metallic Segregated & Graded and sent to Designated Dump yard

Our adherence to SAFETY Standards & Equipment

Personal Protective Equipment (PPE) List

SAFETY is of Primordial Importance for us

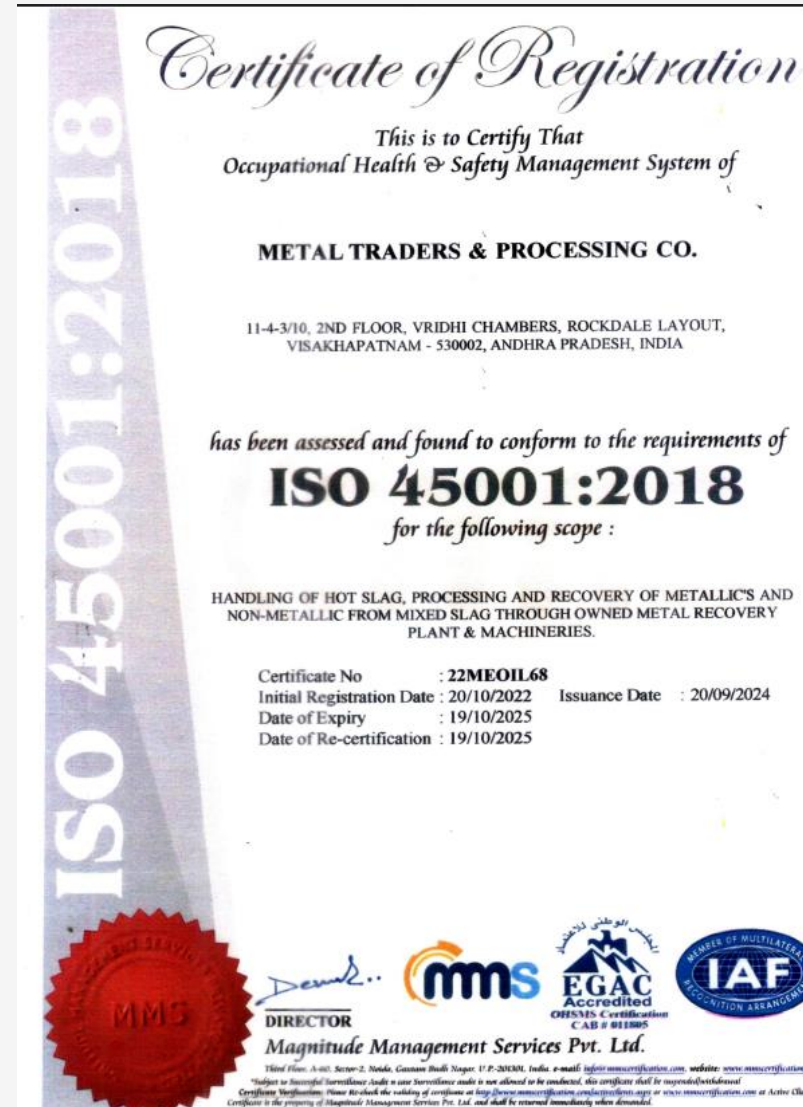

Head Protection	:	Helmets and Hard Hats
Eye & Face Protection	:	Safety Goggles and Face Shields
Hearing protection	:	Ear Plugs & Earmuffs
Respiratory Protection	:	Masks, Full-Face Respirators
Hand Protection	:	Gloves
Foot Protection	:	Safety Boots and Anti-Slip Shoes
Body Protection	:	Safety Vests , Suits

Our adherence to **SAFE HANDLING**

We are Certified for our Safety Standards

RESOURCES

of

Professional Manpower

Our **Professional Manpower** :

- Experienced in Hot Slag Handling & Processing.
- Adheres to modern Safety & Security measure while handling the work.

Resources- Machinery

Following is our LIST of machines used for Hot Slag Handling & Processing

KOBELCO - SK520

KOBELCO - 380

VOLVO EXCAVATOR - 480 C

KOBELCO - SK220

KOBELCO - SK80

DOZER

WHEEL LOADER

DUMPER 1035

DUMPER HM 1025

EICHER - PRO TIPPERS

TATA 955 CRANE

P & H 955 CRANE

MRP Unit @ 250 TPH

CURRENT CLIENTS

of

Testimonials

We take the pride of **Repeat Orders** from our reputed clients which demonstrates satisfied Performance as per requirement of Client

Ongoing Projects

Visakhapatnam Steel Plant (RINL)

- Hot Slag Handling of SMS1 & SMS 2
- Loading, Transportation & unloading of heavy skull from slag pit of SMS-II
- Processing of Steel Skull by balling & lancing.
- Shifting of tundish skull from TP bay of SMS-II to skull breaking yard.

Bokaro Steel Plant (Bokaro)

- Collection, Processing & Delivery of maintenance / wear scrap from all over the plant.
- Recovery & Processing of scrap & slag
Lifting of slag / muck/ iron ore & delivery at designated area.
- Hot slag handling other miscellaneous works at SMS-II.

JSW Steel Ltd (Toranagallu / Bellary).

- EAF & ZPF Slag processing Operation at Slag processing yard.
- Hot Slag Handling, Alley Dozing & Misc activities at SMS-I.
- Hot Slag handling Miscellaneous activities at SMS-4

Durgapur Steel Plant (Durgapur).

- Operation & maintenance of magnetic separator for processing of dump slag.

Nagarnar (NMDC) Steel & Iron Plant / C.G.

- Hot slag handling, slag pot handling etc.; and other allied works at SMS.
- Processing of B.O.F slag & dispatch of scrap & processed slag.
- Collection, loading & transportation scrap / steel skull like tundish, steel skull, chilled thimble jam etc. & processing of same.
- Collection, transportation & processing of steel / iron (wear scrap) from all over the plant of NISP.
